Atchison Lady Recommends "Outside" Treatment for Colds

The New Treatment With Fresh Air and Antiseptic Vapors that Does Away With Internal Medicines—Flannel Jackets, etc., etc.

You Just Rub It On Over Throat and Chest—Relieves by Inhalation and Absorption.

In the South everyone uses the "outside" application—Vick's Vapo-Rub Salve—in place of internal medicines for all forms of cold troubles, from head colds, asthmatic and catarrhal troubles, down to deep chest colds, sore throats, bronchitis or incipient pneumonia. Last winter it was introduced in Kansas for the first time, and Dymnes Pharmacy presented Mrs. J. M. Magill, 714 S. 5th St. Atchison, with a complimentary jar, and requested that she give it a thorough test.

Mrs. Magill reports: "I have tried Vick's Vapo-Rub in cases of cold and croup, and consider it the best remedy for these troubles that I have ever used."

Vap-O-Rub really is a remarkable preparation. It comes in salve form, and yet acts like a vapor-lamp. For cold troubles you just rub it over the throat and chest and cover with a warm flannel cloth. Leave the covering loose around the neck, as the body heat releases the ingredients in the form of vapors. These medicated vapors are inhaled all night long, with each breath, loosening the phlegm and opening the air passages. In addition, Vap-O-Rub is absorbed through and stimulates the skin, taking out the tightness and soreness. Croup is usually relieved within fifteen minutes, and most colds over night. Vap-O-Rub is absolutely harmless to the smallest child—the formula is on every wrapper. Three sizes, 50c, 75c or \$1.00.

VICK'S VAPORUB SALVE

REPUBLIC IS SOLD

Goodland Paper Is Under New Management.

Many Other Changes in Sixth District Newspapers.

Goodland, Kan., April 24.—G. W. Foss and F. L. Allen have purchased the Republic, one of the best known journals in this section of the state. The new editors say they will be fair to every political aspirant in Sherman county regardless of political lines. J. H. Stewart, the retiring editor, has made the Republic a splendid, new paper. There were seven papers in Sherman county when he entered the field. There are only three left, two in Goodland and the new paper started in Kanorado by Loren Sears. The new management of the Republic is determined to keep the paper up to its first class standard.

Among other newspaper changes in northwest Kansas is the sale of the Lacey Herald to Mrs. L. Group, one of the best known all-around printers and writers in this section of the state. Mr. Group has published papers and held jobs on several of the leading journals in the Sixth district.

Mankato Monitor to Change.

The rumor has gone out that Irvin Hogue, formerly of the Greenleaf Sentinel, will take charge of the Mankato Monitor early next month. Emmett George, the present owner of the paper, is one of the national delegates to the Chicago convention from the Sixth district. He will be busy during the campaign, and it is said he is slated to make an active campaign for the Republicans in the district.

Progress in Field.

A few years ago there wasn't a linotype machine in the Sixth district. Now one can count them by the dozens. The Goodland Republic was the first newspaper to introduce one. Other papers have followed suit, and now the Eabon Times, Jewell City Republic, the two Stockton papers, Review and Record, the papers in Russell, the Record and Reformer, Norton News and Telegram, Phillipsburg News, Glen Elder Sentinel, Beloit Call and Gazette, Downs News, Smith Center Journal and Pioneer, Ellsworth Messenger and Reporter, Lebanon Times, Burr Oak Herald and Logan Republic have machines.

It goes to show that the newspaper fellows of the Sixth district are making more than a good living.

Abolished the Hyphen.

The Phillipsburg News-Dispatch is tired of using the hyphen longer, and last week dropped the Dispatch part of the name. The News is all right, and is one of the latest to put in a modern linotype machine.

The Kirwin Kansas is tired of renting and is erecting a new fire proof home for the plant.

So far as known only one Sixth district newspaper fellow is after post office—not now. Frank Gresson, of the Atwood Square Deal wants to be county clerk of Rawlins county.

LOWER STOCK FEEDING COST.

Experiments in Methods Carried Out at Hays Experiment Station.

Hays, Kan., April 25.—Methods of feeding live stock in Kansas, especially western Kansas, will be revolutionized and the cost materially lowered, W. H. Coel, professor of animal husbandry at the Kansas State Agricultural college, predicted here following a checking up of results from winter feeding experiments at the Fort Hays branch experiment station.

"The purpose of our experiments is to produce products of grain farming that otherwise would have no value," explained Prof. W. A. Coel. "The rough feed should be worked off during winter feeding experiments. The feed should be saved until the last of the season."

"The station is working to determine economical methods of producing beef. In the last four years the experiment station has not fed a load of cattle that has lost money. The station uses cattle to furnish a market for the grain and hay products. Live stock feeding operations are a means of marketing that which is produced."

SCHOOL OPERATES A FARM.

Reno County Students Sold \$800 Worth of Products This Year.

Hutchinson, Kan., April 26.—Reno county high school has one of the best school farms in the state, according to Professor Albert Dickens, of the Kansas State Agricultural college, who was here recently on an inspection. In an effort to increase the efficiency in teaching agriculture the high school authorities established the farm which consists of forty acres, with twelve acres of alfalfa, fifteen acres of wheat and five acres of oats this year.

The school farm sold \$800 worth of products this year, according to school officials. It is planned to add a model orchard and a model barn with a herd of dairy cows to the farm before next year.

DUG A TON OF DANDELIONS.

Winner of Contest at Abilene Took Out 833 Pounds.

Abilene, Kan., April 26.—Three tons of dandelions were slaughtered in the campaign waged by the boys and girls of the city last week, with the prizes offered by the city federation as a part of the clean up program serving as an impetus. This amount was weighed off Saturday. Ivan Robertson won the first prize by having dug 833 pounds of the pest, while Ida May Etherington won the first prize of \$25 offered by the city federation. Boys: 2nd, Chester Gish, 32, 685 pounds; 3rd, George Dobkins, 11, 600 pounds; 4th, Ralph Hanson, 10, 300 pounds. Girls: 1st, Ethel Elwell, 12, 150 pounds; 2nd, Ethel Pike, 11, 130 pounds; 3rd, Martha Oakman, 10, 100 pounds.

GOOD USE FOR EASTER EGGS.

Mankato Sunday School Sent 121 Doz. to Bethany Hospital.

Mankato, Kan., April 25.—As an Easter offering, every member of the Methodist Sunday school of this place was requested to bring one dozen eggs to the class rooms Sunday morning. The author of the plan was the Rev. A. N. Smith, who suggested that they be sent to Bethany hospital at Kansas City.

Cases were furnished by local merchants and when the eggs were all "gathered," it was found that one hundred and twenty-one dozen had been contributed. They were shipped to the hospital Monday.

25 YEARS AGO IN TOPEKA

From the columns of THE TOPEKA STATE JOURNAL

April 26, 1891.

The parks and resorts about Topeka were visited by many yesterday although the leaves on the trees are just beginning to put forth. The city rail field park. If anything the park will be more popular than ever. A dozen new boats have been put on the creek, and the Electric Line run double header trains to Oakland grove after ten o'clock. The track is in excellent condition and the ride through the clover fields of Oakland is an enjoyable one.

The Belt line run motors and cars to Martin's Hill hourly. All the drives on the hill have been set out with catapans and in a few years the entire crown of the hill will be as well shaded as the river slope.

The West side circle carried a good many people to the west side. The closing of the line to Highland Park and Vinewood was much regretted as the latter was one of the favorite places to spend a Sunday afternoon last summer.

Byron Roberts was appointed assistant of the United States Savings bank today.

John J. MacFarland, living at 224 Kansas avenue, died yesterday at the residence of his daughter, Mrs. Fred Miller, 518 Tyler street.

Robert Wade, an old colored man known as "Big Wade" was buried at four o'clock this afternoon. Wade is said to have been the largest man in Topeka.

The Hutchinson building occupied by Wiggins, Crosby & Co., was sold this morning to satisfy a mortgage given by Mrs. M. W. Hutchinson to George Wellhouse for \$25,000.

BLUEBLOODS TO SKATE

Millionaire Ice Palace in N. Y. Strictly a "Sassiest" Affair.

New York, April 26.—The millionaire ice palace in the Plaza, just off Fifth avenue, for which the plans are complete will be a gorgeous and exclusive place wherein New York society will spend their next winter.

The public will be quite excluded. One's blood must be the bluest of the blue to get in at all, and the membership is limited, at that.

The palace will have mirrored walls, balconies enclosed in glass, log fires on cold night and showers for use after strenuous work on the skates. Car-nivals and cotillions on the ice are planned. Among the sports will be interclub hockey matches, tennis and curling. There will be dancing every afternoon and evening, after the theater.

An option has been obtained on a site in this neighborhood and that the corporation being organized to launch the enterprise with a capital stock of \$200,000 preferred and \$250,000 common has raised enough to guarantee the success of the project.

MANY KANSAS MOTHERS CAN SAY THE SAME.

Kansas City, Kans.—"I took Doctor Pierce's Favorite Prescription while in a delicate condition and have a fine healthy daughter. I read of this medicine in an advertisement, and decided to take it."

I am satisfied with it. "I often take Dr. Pierce's Pleasant Pellets for constipation and biliousness. I think they are splendid for these ailments."—Mrs. CHAS. JONES, 541 Barnett, Ave., Kansas City.

In the expectant period, before the coming of the little one—women need to be possessed of all their natural strength. Instead of being harassed by forebodings and weakened by nausea, sleeplessness, or nervousness—if you will bring to your aid Doctor Pierce's Favorite Prescription you will find that most of the suffering will not make its appearance.

Dr. Pierce's Favorite Prescription is the result of a life study of ailments, disorders and irregularities peculiar to women. Its continued supremacy in its particular field for nearly 50 years is your assurance of the benefit to be derived from its use.

Women who are restless, with constant change of position, "nerviness," who are abnormally excitable or who experience fainting or dizzy spells, or nervous headache and wakefulness are usually sufferers from the weaknesses of their sex.

Neither narcotics nor alcohol will be found in this vegetable prescription, in liquid or tablet form. Sold by druggists or a trial box will be sent you by mail on receipt of 50 cents.

Address Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets regulate liver and bowels.

"A. P." ELECTION

Annual Meeting of Associated Press Members in N. Y.

Toast to Wilson; Late Col. W. R. Nelson Eulogized.

New York, April 24.—In a toast offered to President Wilson at the annual meeting of The Associated Press, here late yesterday, Frank B. Noyes, of Washington, D. C., president of the organization, tendered "our affectionate sympathy and our loyal support to the man who, by virtue of his great office is our spokesman to the world and who speaks for our right and our honor as God gives him to see our rights and our honor."

Mr. Noyes' audience included newspaper publishers and editors from all parts of the country. Nicholas Murray Butler, president of Columbia university, made the principal address at the meeting.

Resolutions were adopted at the meeting today expressing regret because of the death of three former directors—Col. William R. Nelson, publisher of the Kansas City Star; Charles W. Knapp, treasurer of the New York Times; and Herman Ridder, publisher of the New York Staats Zeitung. The first of these memorials declares that, "We attest the sense of the service of Colonel Nelson rendered to his profession, to the city and state in which he lived and to the whole country during his long and successful career as an editor and publisher."

Name Board of Directors.

Victor F. Lawson, publisher of the Chicago Daily News, addressed the meeting upon the death of Mr. Knapp, whom he described as "conservative in judgment and opinion, but open to the light of new thought and action," possessing always "the courage of his convictions."

FOR "MI-ZOO-RI" DAY

Southland Club of N. Y. Holds Goldenrod Card Party.

New York, April 26.—Missouri Day of the Southland club is being celebrated here today at the Hotel Marquette, a floral card party, which is attended by Elliott W. Major, governor of Missouri, and several of the state's representatives in congress.

For the afternoon the ball room and the rose room of the hotel will be converted into a floral garden—gold-rod, state flower of Missouri, and southern snailx being dominant.

Singing birds are concealed in hanging floral clusters.

Aiding Mrs. Louis Seibert on the reception committee are Mrs. C. C. Adams, Mrs. F. Clark Brown, Mrs. Harry C. Birch, Mrs. O. D. Batchelor, Mrs. Wolsey W. Collins, Mrs. Silas F. Catchings, Mrs. H. B. Cantey, Mrs. J. Strong Foster, Mrs. Horace M. Hovey and Miss Helen Palmer.

The Southland club is composed of women now residing in New York who are natives of the south or the wives of southern born men. Its chief objects is to bring into closer relationship people of the north and south.

Simon Baruch is president of the club.

HIGHWAY DISAPPEARED

Engineer Explains 320 Miles Increase Along Coast Due to Tide Being Out.

Salem, Ore., April 26.—"The mysterious disappearance of 320 miles of highway in Lincoln county as shown in the biennial report of Oregon, caused the department of agriculture to investigate the matter."

When Malheur, the biggest county in the state, showed an increase of 320 miles of highway in two years, the department demanded an explanation from State Engineer Lewis.

Today Lewis made this explanation to Washington. The 1914 road report from Lincoln county was made when the tide was out. When the 1916 report was made the tide was in, and 320 miles of coast highways were under water and couldn't be counted.
